Basic PCP Usage

Western Highlands Local Management Entity (LME) has modified its current policy around the use of the Basic Person Centered Plan (PCP). With this change individuals that receive **only** Basic Benefit services require **only** the 4-page Basic Benefits Service Plan. Should the individual's needs warrant utilization of Enhanced Benefits Services, the 13 page Person Centered Plan (PCP) must be completed by the Qualified Professional (QP) through a person centered process.

Interpretation:

If you are providing 90804, 90806, 90846, 90847, H0004, H0004-HR, H0004-HS, H0004-HQ, and/or H0005, **ONLY**, then you can use the Basic Benefit 4 page PCP. This includes SA providers offering SA group/individual services under the SAER package.
